EDUCATION

Dayananda Sagar College Of Engineering

Bachelor of Engineering in ISE (VTU)

2026

CGPA: 9.3

SKILLS

Languages: TypeScript, JavaScript, Python, C++

Frameworks & Libraries: Next.js, Tailwind CSS, Node.js, Express.js, FastAPI

Tools & Platforms: Git/GitHub, Firebase, Azure AI Foundry, MSAL, Vercel

EXPERIENCE

Microsoft

May 2025 – July 2025

Technology Consultant Intern

Onsite, Hyderabad

- Built AI agents using **Azure AI Foundry** and developed backend APIs with **FastAPI** in Python, tested using **cURL** commands.
- Worked with **Blob Storage**, **MSAL authentication**, and other Azure services in a collaborative team setting.
- Designed clear architecture diagrams and flowcharts to support feature planning and documentation.

Wecofy

Jan 2025 – Mar 2025

Full Stack Developer

Remote

- Developed responsive UI using **Next.js**, **Tailwind CSS**, and **TypeScript**, and ensured layout consistency based on client feedback and design guidelines.
- Integrated and utilized **Firebase** for authentication and real-time data sync to support backend functionality.

PROJECTS

EcoMart | Next.js, Tailwind CSS, TypeScript, Firebase

 [EcoMart](#)

- Built a **Chrome extension** offering real-time **sustainability insights** and **eco-friendly alternatives** while shopping online.
- Developed a **scoring system** (0–100%) evaluating CO₂ footprint, water usage, and recyclability. [\[Chrome Marketplace\]](#) [\[Website\]](#)

PRotect - PR Security Reviewer | Probot, JavaScript, Node.js, GitHub API

 [PRotect](#)

- Created a **GitHub bot** and **Chrome extension** to analyze Pull Requests for **security vulnerabilities** like SQLi and XSS.
- Integrated an **AI-driven scoring system** to flag or auto-close risky PRs with inline comments. [\[Extension\]](#) [\[Probot\]](#)

ACHIEVEMENTS

- Winner, Smart India Hackathon 2025:** Emerged as a national winner among **68,000+ teams nationwide**.
- Winner, HackVerse 5.0 (AI Sponsor Prize) - NITK:** Built **InvestBuddies**, a collaborative investing platform, winning among **800+ participants**. [\[GitHub Repository\]](#).
- Winner, CodeFury v7 - UVCE:** Developed **Rescue Ring**, a real-time disaster management app, securing 1st place against **140+ teams**. [\[GitHub Repository\]](#).
- 2nd Runner-Up, GENESYS Hackathon - PES University:** Created **Ecomart**, a sustainable shopping extension, ranked in the top 3 out of 37 finalists, which were chosen from **865 participants** [\[GitHub Repository\]](#).
- ACM Winter School on DSA and Computational Biology:** Selected for an advanced program focused on algorithms and computational biology. [\[Blog\]](#).
- Winner, Sentinel Hack 5.0 - KSIT:** Secured **1st place** in a national-level hackathon among 200+ teams.

EXTRACURRICULAR

Point Blank - Member

- Part of **PointBlank**, a group of 80+ programmers promoting coding culture by participating in **10+** contests and organizing technical seminars.
- Collaborated with the team to design and develop the official **PointBlank** website. [\[Website\]](#)
